Phonetic Syllaballistic Five – School Subjects

Below you will find the phonetic spellings of 24 school subjects. However, the phonetic spellings of these 24 school subjects have been broken up into 83 phonetic syllables and sorted alphabetically. Your goal is to connect the syllables to rebuild all 24 school subjects. The number of blanks after each number (1–24) will tell you how many phonetic letters you need to spell the word. The parentheses () will tell you the number of syllables the word has. For instance, in answer 2 you are looking for a two syllable word that is spelt with five phonetic letters. If a school subject takes two words to describe, this will be indicated in the parentheses as well. Every syllable on the list must be used, but used only once, so cross out the syllables as you use them. When you are finished, write out the English spellings of the words in the spaces to the right.

ɑːt	æl	baɪ	brə	ə	ə	ə	ə	ə
ə	ə	ə	ə	ən	ən	əns	əns	edʒ
