

## Phonetic Word Search Ten – Shapes

At the bottom of the page you have a list of twenty geometric shapes. Hidden in the block of phonetic letters in the middle of the page are the phonetic spellings of the words on the list. Circle the phonetic spellings of the words as you find them in the puzzle. The spellings can appear horizontally (← →), vertically (↑↓), or diagonally (↖ ↘), either forwards (→/fɔ:wədz/→) or backwards (←\zdəwkæb\←). Be aware that in the puzzle there are also several phonetic misspellings of the words that are designed to trick you, so make sure that you circle only the correct spellings of the words as they sound.

p s ə l s p e l i: k t u: j l n
